

# COMPLETED WORK

**About Us**

We believe all children should be able to experience the joys of childhood and the profound, life-long impact of camp. The Painted Turtle staff, volunteers, Board of Directors, and supporters work year-round to ensure children with medical conditions that may seem just to be kids in a safe and inclusive environment. Thousands of campers and family members come together each year to sing, dance, laugh, grow, and discover their potential in a community of people who have shared experiences.

**Programs**

The Painted Turtle offers an exhilarating array of camp activities and intentional programs that foster personal growth, self-confidence, and exploration. Our programs empower campers to make new friends, gain independence in their medical care, and become their greater selves.

**Support Us**

Put together your own virtual FUNdraiser with friends and family, sew a turtle pillow to be sold at our annual auction, or plan a walk and donate supplies for care packages, or take a social media challenge to help spread the word about The Painted Turtle's mission- there is something here for everyone!
